PREFACE AND ACKNOWLEDGMENTS

Twenty-Eighth Edition

The South Carolina Higher Education Statistical Abstract is a comprehensive, single-source compilation of tables and graphs which report data frequently requested by the Governor, Legislators, staffs of colleges and universities, other state government officials and the general public.

Located in the Abstract are the most recent statistics on enrollment, degrees awarded, faculty, tuition and fees, funding and other factual data. A glossary of terms used is included in the back of the Abstract.

The Abstract would not have been possible without the assistance of the college and university institutional representatives' completion of the Commission's reports. The help and support of these individuals are extremely important to the Commission's data collection process and related reports. Their assistance is greatly appreciated.

Lynn Metcalf
Director - Finance, Facilities & MIS

Mission, Functions and Goals of the Commission

I. Mission

"The South Carolina Commission on Higher Education will promote quality and efficiency in the state system of higher education with the goal of fostering economic growth and human development in South Carolina."

II. Roles and Functions

- | | |
|---|--|
| <p>A. To provide pertinent information about higher education to parents and students and to promote access to higher education.</p> <p>B. To review and approve new degree program proposals and evaluate existing academic programs.</p> <p>C. To develop and maintain a process by which annual appropriation requests are based on institutional performance and to submit these and capital improvement requests to the Budget and Control Board and the General Assembly.</p> <p>D. To administer state, regional, and federal programs affecting South Carolina higher education.</p> <p>E. To maintain a statewide planning and institutional effectiveness system.</p> <p>F. To monitor implementation and evaluate the effectiveness of programs designed to provide minority groups with access to and equality of higher education opportunities.</p> <p>G. To examine and license non-public educational institutions.</p> <p>H. To make recommendations by means of data collection, research, and studies to the Governor, the Budget and Control Board, and the General Assembly regarding policies, roles, operations, and structure of South Carolina's higher education institutions.</p> <p>I. To maintain statewide higher education data collection.</p> <p>J. To establish procedures for the transferability of courses at the undergraduate level between two-year and four-year institutions.</p> <p>K. To coordinate with the State Board of Education in determining minimum academic expectations and requirements and approving appropriate secondary courses for prospective post-secondary students.</p> <p>L. To review minimum undergraduate admissions standards for in-state and out-of-state students.</p> <p>M. To reduce, expand, consolidate, close institutions accordance with Section 59-103-45(5) of the Code of Laws of South Carolina.</p> | <p>N. To review and approve each institutional mission statement to ensure it is within the overall mission of that particular type of institution as stipulated by Section 59-103-15 and is within the overall mission of the state.</p> |
|---|--|

III. Goals

- | |
|---|
| <p>A. To make South Carolina a global leader by working with business and industry to foster higher education's role in economic growth and human development.</p> <p>B. To maintain positive relations with the Governor, the Legislature, state agencies, parents, and students and to provide them and the general public with accurate information on South Carolina higher education.</p> <p>C. To present the needs and develop support for appropriate funding of public colleges and universities.</p> <p>D. To address strategic issues in public and private higher education as they are identified and to ensure a continuous process of assessment and improvement in the colleges and universities.</p> <p>E. To assure access to and equality of educational opportunity among minority groups in South Carolina higher education.</p> <p>F. To promote quality and diversity in the academic offerings of institutions of higher learning.</p> <p>G. To prevent and eliminate unnecessary duplication of degree programs among the state's institutions.</p> <p>H. To expand postsecondary educational opportunities for South Carolina residents, to recognize student achievement, and to encourage excellence in teaching and research by administering various higher education programs.</p> <p>I. To ensure that non-public educational institutions, other than those exempted in the statutes, are legitimate educational enterprises and that they are fulfilling their purposes.</p> |
|---|

Commission Members

As of May 2006

Commissioner	County	Term Expiration	Congressional District
» Layton McCurdy, <i>Chairman</i>	<i>Charleston</i>	7/1/08	
□ Rosemary H. Byerly, <i>Vice Chairman</i>	<i>Inman</i>	7/1/06	4
△ Larry Durham	<i>Lancaster</i>	7/1/04*	
» Douglas Forbes	<i>Columbia</i>	7/1/04*	
□ Bettie Rose Horne	<i>Greenwood</i>	7/1/08	3
□ Vermelle Johnson	<i>Orangeburg</i>	7/1/06	6
□ James S. Konduros	<i>Columbia</i>	7/1/06	2
△ Miles Loadholt	<i>Barnwell</i>	7/1/04*	
» Cindy Mosteller	<i>Mt. Pleasant</i>	7/1/08	
□ Daniel Ravenel	<i>Charleston</i>	7/1/08	1
□ James H. Sanders	<i>Gaffney</i>	7/1/08	5

ENROLLMENT

Glossary

American Indian or Alaskan Native - A person having origins in any of the original peoples of North American and who maintains cultural identification through tribal affiliation or community recognition.

Asian or Pacific Islander - A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian Subcontinent, or Pacific Islands. This includes people from China, Japan, Korea, the Philippine Islands, American Samoa, India, and Vietnam.

Black, African American - A person having origins in any of the black racial groups of Africa (except those of Hispanic origin).

Hispanic - A person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin, regardless of race.

Nonresident Alien - A person who is not a citizen or national of the United States and who is in this country on a visa or temporary basis and does not have the right to remain indefinitely.

White, Non-Hispanic - A person having origins in any of the original peoples of Europe, North Africa, or the Middle East (except those of Hispanic origin).

Race/ethnicity Unknown - This category is used ONLY if the student did not select a racial/ethnic designation and the postsecondary institution finds it impossible to place the student in one of the aforementioned racial/ethnic categories during established enrollment procedures or in any post-enrollment identification or verification process.

First-Professional Student - A student enrolled in any of the following degree programs: Chiropractic, Dentistry, Law, Medicine, Optometry, Osteopathic Medicine, Pharmacy, Podiatry, Theology, and Veterinary Medicine.

First-Time Freshman - An entering freshman who has never attended a college (or other postsecondary institution). Includes students enrolled in the fall term who attended college for the first time in the prior summer term. Also includes students who entered with advanced standing (college credits earned before graduation from high school).

Undergraduate Student - A student enrolled in a 4- or 5-year bachelor's degree program and associate's degree program, or a vocational or technical program below the baccalaureate.

Graduate Student - A student taking courses offered for credit toward a master's or doctoral degree.

Transfer Student - A student entering the reporting institution for the first time but known to have previously attended a postsecondary institution at the same level (e.g., undergraduate, graduate). The student may transfer with or without credit.

Full-Time Equivalent (FTE) Student Enrollment – Calculated as fifteen (15) credit hours per semester for an undergraduate student, twelve (12) credit hours per semester for a graduate level 1 (master's) student, and nine (9) credit hours per semester for graduate level 2 (doctoral) students. First professional pharmacy hours are fifteen (15) credit hours and first professional law are fourteen (14). Medicine and Dentistry use the headcount rather than credit hours.

Lower Division – Freshmen and sophomores.

Upper Division – Juniors and seniors.

Retention Comparison Fall 2005, Fall 2004, Fall 2003

See previous two pages for details of the graphical information.

Migration of First-Time Undergraduate Transfers

IPEDS (Integrated Postsecondary Education Data System) defines a transfer student as one entering the reporting institution for the first time but known to have previously attended a postsecondary institution at the same level (e.g., undergraduate, graduate). The student may transfer with or without credit.

The following pages show the detailed migration of students from one institution to another for fall 2005.

For a summarization of the tables shown on pages 48-59, please see page 60.

DEGREES AWARDED

Glossary

Degree – An award conferred by a college, university, or other postsecondary education institution as official recognition for the successful completion of a program of study.

Diploma – A formal document certifying the successful completion of a prescribed program of study. Award conferred by a college, university, or other postsecondary education institution as official recognition.

Certificate – A formal award certifying the satisfactory completion of a postsecondary education program.

Associate's Degree – An award that normally requires at least two but less than four years of full-time equivalent college work.

Bachelor's Degree – An award (baccalaureate or equivalent degree, as determined by the Secretary, U.S. Department of Education) that normally requires at least four but NOT more than five years of full-time equivalent college-level work. This includes ALL bachelor's degrees conferred in a five-year cooperative (work-study plan) program.

Master's Degree – An award that requires the successful completion of a program of study of at least the full-time equivalent of one but not more than two academic years of work beyond the bachelor's degree.

Doctoral Degree – The highest award a student can earn for graduate study. The doctor's degree classification includes such degrees as Doctor of Education, Doctor of Juridical Science, Doctor of Public Health, and the Doctor of Philosophy degree in any field such as agronomy, food technology, education, engineering, public administration, ophthalmology, or radiology. For the Doctor of Public Health degree, the prior degree is generally earned in the closely related professional field of medicine or in sanitary engineering.

First-Professional Degree – An award that requires completion of a program that meets all of the following criteria: (1) completion of the academic requirements to begin practice in the profession; (2) at least two years of college work prior to entering the program; and (3) a total of at least six academic years of college work to complete the degree program, including prior required college work plus the length of the professional program itself. First-professional degrees may be awarded in the following ten fields: Chiropractic, Dentistry, Medicine, Optometry, Osteopathic Medicine, Pharmacy, Podiatry, Veterinary Medicine, Law and Theology.

CIP (Classification of Instructional Programs) – An NCES (National Center for Education Statistics) publication that provides a numerical classification and standard terminology for secondary and postsecondary instructional programs.

Credit Hour – A unit of measure that represents an hour of instruction that can be applied to the total number of hours needed for completing the requirements of a degree, diploma, certificate or other formal award.

Credit Course – A course that, if successfully completed, can be applied toward the number of courses required for achieving a degree, diploma, certificate, or other formal award.

Degree-Seeking Students – Students enrolled in courses for credit who are recognized by the institution as seeking a degree or formal award. At the undergraduate level, this is intended to include students enrolled in vocational or occupational programs.

Most New Jobs: Associate Degree or Postsecondary Vocational Award

Numeric change is employment in the top 20 large-growth occupations that often require an associate degree or postsecondary vocational award, projected 2004-14

■ At this level of training, more than half of the occupations that are projected to gain the most jobs relate to healthcare, reflecting the growing medical needs of an aging population.

Graduation Rates

One of the most talked about educational indicators in South Carolina (and in the nation) is the “graduation rate” of a college or university. What is it exactly? How is it calculated? Why is it important? And perhaps, most importantly, what can this number, often expressed as a percent, tell us about quality at our colleges and universities?

First, it is important to understand that South Carolina originally devised the graduation rate calculation in response to a question raised by the South Carolina Legislature as part of Act 255 of 1992. At that time, the Legislature wanted to know, “How many years does it take for a first-time college student to graduate from a public college or university in South Carolina if the student goes to school full-time and does not change institutions?” All of the public colleges and universities met with the Commission on Higher Education and agreed upon a process to calculate a graduation rate, which in turn would answer this question.

The data has since been standardized on a national level. The National Center for Education Statistics (NCES), in its ongoing effort to report on the condition of postsecondary education in the United States, began in 1997 to collect data on completion or graduation rates and transfer-out rates of full-time, first-time certificate or degree-seeking undergraduate students. This collection has been identified as the Graduation Rate Survey (GRS) and is a component of the Integrated Postsecondary Education Data System (IPEDS).

“These data will provide comparable graduation rate statistics for all postsecondary institutions in the nation. The data will also provide much needed information to researchers as an institutional outcome measure, and it will offer insight into the relationship between the changing demographics of college-going cohorts within different types of institutions” (Form IPEDS-GRS-2, page 2). The information collected can also be used by institutions for the Student Right-to-Know Act. Additionally, cohort data has been added for athletes enabling this graduation data to be provided to the National Collegiate Athletic Association (NCAA) by NCES.

Graduation Rates Public Senior Institutions Number and Percent of Degree-Seeking, First-Time, Full-Time Freshmen Entering in Fall 1999 and Graduating With a Bachelor's Degree or Associate's Degree Within 150% of Normal Time for Completion*						
Research Institutions 1999 Cohort	Initial Bachelor's Cohort	Associate's Cohort	Allowable Exclusions	Final Cohort	Completers in 150% of Normal Time	Percent Graduating Within 150%

* As reported to the Commission on Higher Education for Certificates or Diplomas graduated through Fall 2004, for Associate's degrees awarded through Summer 2005.

THE SAT PROGRAM

The **SAT I: Reasoning Test** and the **SAT II: Subject Tests**, the primary components of the SAT Program, are designed to assess many of the skills that are important to students' success in college. Because the subject matter of high school courses, as well as grading standards varies widely, the tests have been developed to provide a common standard against which students can be compared. Most students also complete the optional Student Descriptive Questionnaire (SDQ) when they register to take SAT Program tests. This provides valuable contextual information to aid in interpreting and understanding individual and group scores.

National SAT Snapshot

- Thirty-eight percent of SAT takers in the class of 2005 were minorities, the largest percentage of any class of SAT takers to date. All racial/ethnic groups registered increases compared to 1995 although some of the gains were minimal, especially among those with the fastest growth in the numbers of test-takers.
- Thirty-six percent of SAT takers are first-generation college students. Fifty-eight percent of first-generation college students are female. This female dominance holds true for all the racial/ethnic groups.
- Similar to SAT scores, students' performance in high school varies by race/ethnicity. Mean high school GPAs ranged from a high of 3.39 for Asian American students to 2.99 for African American students.

Trend Data: The New SAT*

Math	532	530	532	533	537
Verbal/Critical Reading	518	519	519	521	519
Writing	--	--	--	--	516

- Math and critical reading score means for the spring 2005 administrations are consistent with SAT math and verbal means during the spring administrations from the past five years. A four-point increase in math continues an upward trend.
- No historical data are provided for the writing test because it is a new test.

*Comparisons across March, May, and June administration data for all years are based on test-takers who were juniors during these spring administrations.

TUITION, COST, GRANTS

Glossary

Application Fee – The amount of money that an institution charges for processing a student's application for admission to the institution. This amount is not creditable toward tuition or required fees, nor is it refundable if the student is not admitted to the institution.

Board Charges – The charge for an academic year for meals for a specified number of days (or meals) per week.

Books and Supplies – The average cost of books and supplies for a typical student for an entire academic year (or program).

Dormitory Capacity – The maximum number of students for whom the institution can provide dormitory housing facilities for, whether on or off campus.

MRR – Mission Resource Requirement. This is the formula used by the Commission on Higher Education in determining institutional operating and general funding needs. See page 105.

Room Charges – The charges for an academic year for rooming accommodations of a typical student sharing a room with one other student.

Tuition – Amount of money charged to students for instructional services. Tuition may be charged per term, per course, or per credit.

Required Fees – Fixed sum charged to students for items not covered by tuition and required of such a large proportion of all students that the student who does NOT pay is an exception.

In-District Student – A student who is a legal resident of the locality in which he/she attends school and thus is entitled to reduced tuition charges if offered by the institution.

In-State Student – A student who pays in-state rates in accordance with Section 59-112 of the 1976 SC Code of Laws, as amended.

Out-of-State Student – A student who pays the out-of-state rate in accordance with Section 59-112 of the 1976 SC Code of Laws, as amended.

Statewide Scholarships and Grants

Administered by the SC Commission on Higher Education

Palmetto Fellows Scholarship

The Palmetto Fellows Scholarship is a merit-based scholarship program that was established in 1988 to recognize the most academically talented high school seniors in S.C. and encourage them to attend college in the State. Each Palmetto Fellow may receive a scholarship of up to \$6,700 annually, less any other gift aid received. The scholarship must be applied toward the cost of attendance for a maximum of eight full-time terms of study toward the first bachelor's degree at a participating senior institution in S.C. Students receiving the Palmetto Fellows Scholarship cannot also be a recipient of the LIFE, SC HOPE or Lottery Tuition Assistance Scholarship. In order to submit an application during the high school senior year, students must meet one of the following two academic requirements:

1. Score at least 1200 on the SAT (27 on the ACT) by the June test administration, earn a minimum 3.50 cumulative GPA on the SC Uniform Grading Scale (UGS), and rank in the top six percent of the class; or
2. Score at least 1400 on the SAT (32 on the ACT) by the June test administration and earn a minimum 4.00 cumulative GPA on the SC UGS.

To renew the Palmetto Fellows Scholarship, students must earn 30 credit hours each academic year and a cumulative 3.0 grade point average for graduation purposes each academic year.

Legislative Incentives for Future Excellence (LIFE) Scholarship

The LIFE Scholarship Program is a merit-based program that was established in 1998 to provide incentives for students to be better prepared for college and to increase access to higher education. Students attending an eligible two-year or technical institution may receive up to the cost-of-tuition plus a \$300 book allowance toward the cost-of-attendance each academic year (The two-year independent institution may award up to the average cost-of-tuition at the State's two-year regional campuses). Students attending an eligible four-year institution may receive up to \$4,700, not to exceed cost-of-tuition, plus a \$300 book allowance toward the cost-of-attendance each academic year.

In order to qualify, first-time entering freshmen attending a two-year or technical college must earn a 3.0 cumulative GPA, based on the S.C. Uniform Grading Scale at the end of the senior year of high school.

In order to qualify at a four-year institution, first-time entering freshmen must meet two of the following three criteria:

- (1) 3.0 cumulative GPA on a 4.0 scale, based on the S.C. Uniform Grading Scale
- (2) 1100 SAT/24 ACT
- (3) Rank in the top 30% of graduating class

Continued Eligibility:

Students must meet the following criteria to renew eligibility for the LIFE Scholarship:

- (1) Continue to meet all eligibility requirements as stated in the "Student Eligibility" Section;
- (2) Earn at least a 3.0 "LIFE GPA" by the end of the academic year; and
- (3) Meet the annual credit hour requirement (or its equivalent) by the end of the academic year based on initial college enrollment:

- (a) earn a minimum of 30 (or the equivalent) credit hours if entering the second year; or
- (b) earn a minimum of 60 (or the equivalent) credit hours if entering the third year; or
- (c) earn a minimum of 90 (or the equivalent) credit hours if entering the fourth year; or
- (d) earn a minimum of 120 (or its equivalent) credit hours if entering the fifth year of an approved five-year bachelor's degree program.

Students may receive a LIFE Scholarship for a maximum of two terms for a one-year certificate or diploma program; four terms for an associate's degree program or a two-year program that is acceptable for full credit toward a baccalaureate degree; eight terms for a baccalaureate degree; or 10 terms for an approved five-year baccalaureate degree program.

SC HOPE Scholarship

The SC HOPE Scholarship is a merit-based scholarship that was established under the 2001 S.C. Education Lottery Act and implemented in fall 2002. The scholarship was created to provide funding for students attending an eligible four-year institution in SC and who do not qualify for a LIFE or Palmetto Fellows Scholarship. Funding for this program is dependent upon lottery proceeds. Students may receive up to \$2,500 plus a \$150 book allowance toward the cost-of-attendance for the first year of attendance only. In order to qualify, first-time entering freshmen must have earned a cumulative 3.0 GPA based on the SC Uniform Grading Scale upon high school graduation.

The SC HOPE Scholarship is only for the freshman year. The student can then qualify for the LIFE scholarship, if he or she meets the continuing eligibility requirements. (see LIFE scholarship above under continued eligibility).

Lottery Tuition Assistance

The Lottery Tuition Assistance Program was established under the 2001 S.C. Education Lottery Act and implemented during the fall 2002 term. Since funding for the program is dependent upon lottery proceeds and the number of eligible students, the actual award amount is determined on a term-by-term basis. Each academic year, students must meet the following minimum requirements in order to be eligible:

- Be a S.C. resident;
- Be enrolled in at least six credit hours each term as a degree-seeking student at an eligible two-year S.C. institution;
- Make satisfactory academic progress toward the completion of the degree requirements;
- Must not owe a refund or repayment on any federal/state aid or be in default on any student loans;
- File the Free Application for Federal Student Aid (FAFSA) Form; or complete the FAFSA Waiver
- Must not be eligible for or a recipient of a LIFE, Palmetto Fellows, or SC HOPE Scholarship during the same academic year.

To renew Lottery Tuition Assistance, students must earn a cumulative 2.0 GPA after attempting 24 credit hours.

High school students participating in dual enrollment courses at approved two-year institutions are eligible to receive funding from Lottery Tuition Assistance. Students must complete the FAFSA waiver and be enrolled in a minimum of six credit hours.

S.C. Need-based Grants

The S.C. Need-based Grants Program was established in 1996 to provide financial assistance to the state's neediest students. Students may receive up to \$2,500 annually if enrolled full-time and up to \$1,250 annually if enrolled part-time at S.C. public institutions. Based upon the results of the Free Application for Federal Student Aid (FAFSA) Form, the institution at which the student is enrolled determines the exact award amount, less any other gift aid received. The Grant must be applied directly toward the cost-of-attendance for a maximum of eight full-time equivalent terms.

To renew a Need-based Grant, students must earn a requisite number of credit hours based upon their enrollment status and earn a cumulative 2.0 grade point average.

Scholarships

How many SC students benefit from state scholarships? ... At which institutions? How much money is spent on each scholarship? See the following pages for information on scholarship disbursements.

FINANCE

Glossary

Academic Support - Funds to provide support services for an institution's primary missions – instruction, research, and public services.

Allocation - An authorization to incur obligations and to make expenditures during a stated period of time, for a specified purpose, and not to exceed the amount provided in the authorization.

Appropriation - A legislative authorization that permits government agencies to incur obligations and to make payments out of the treasury for specified purposes. An appropriation usually follows enactment of authorizing legislation. An appropriation act is the most common means of providing budget authority, but in some cases the authorizing legislation itself provides the budget authority.

Auxiliary Enterprise - An entity that exists to furnish goods or services to students, faculty, or staff, and that charges a fee directly related to, although not necessarily equal to, the cost of the goods or services.

Below-the-line-Funding - Funds appropriated to the institution that are in addition to those generated by CHE Formula/MRR methodology. (Also see CHE Formula/MRR definition below)

Budget - A plan for the accomplishment, within a definite time period, of programs related to established objectives and goals, setting forth estimates of the resources required and the resources available (usually in comparison to one or more past periods) and showing future requirements. Also, a request for funds to pay the operating cost of the government.

Capital Budget - A budget that deals with large expenditures for capital items normally financed by borrowing. Usually, capital items have long-range returns and useful life spans, are relatively expensive, and have physical presence (buildings, roads, and sewage systems).

CHE Formula or Mission Resource Requirement (MRR) - A numerical mechanism used to determine funding needs (costs), CHE recommendations to the legislature for funding, and to provide for equitable sharing of state available resources of public higher education institutions. (Also see page 89 for reference to MRR)

Debt Service - All payments in connection with funds borrowed by an institution (e.g., principal payments; interest payments; payments to reserve and to ensure proper upkeep and maintenance of the facilities; trustees' service charges; legal expenses and other items related to indebtedness).

Earmarked Revenue – Revenues designated for a specific activity.

Expenditures - The cost of goods delivered or services rendered, whether actually paid or unpaid, for the operation of an institution and for addition to its plants or payment of an obligation.

Full Funding - Provision of budgetary resources to cover the total cost of a program or project at the time it is undertaken.

FINANCE

Glossary

Incremental Funding - The provision or recording of budgetary resources for a program or project based on obligations estimated to be incurred within a fiscal year when such budgetary resources will cover only a portion of the obligations to be incurred in completing the program or project.

Institutional Support - Central executive-level activities concerned with management and long-range planning of the entire institution, such as the governing board, planning and programming, legal services, etc.

Line-Item Budget - A budget format that presents the exact amount planned to be spent for every separate good or service to be purchased.

Operating Budget - The current year budget that guides agencies' everyday activities.

Public Service - An activity that is established primarily to provide non-instructional services beneficial to individuals and groups external to the institution.

Research - Systemic, intensive study directed toward fuller scientific knowledge or understanding of the subject studied.

Revenues - Revenues result from the rendering of services and is measured by the charge made therefore to the students, sponsors, and others; gains from the sale or exchange of current fund assets; interest and dividends earned on investments; sale of goods; and other increases arising from or for the support of current fund operations (for example, gift, gifts applied, and appropriations).

Student Services - Offices of admissions and registrar and those activities whose primary purpose is to contribute to the student's emotional and physical well-being and to his or her intellectual, cultural, and social development outside the context of the formal program of instruction.

Source: Office of State Budget, Historical Analysis Report, 11/30/2005

NOTE: The Education Lottery began operating in January of 2002 and FY01-02 receipts were first appropriated in FY 2002-03. As shown above for higher education, lottery appropriations include initial appropriations from lottery, unclaimed prizes and any surplus funds as noted.

Programs listed above may additionally receive state funding from other sources (e.g., LIFE, Palmetto Fellows, Tuition Grants, and SC State also receive State General Fund Appropriations)

* Surplus funds are included above as indicated below for:

Palmetto Fellows	\$4,051,040	2,523,954	\$1,054,744	not avail
LIFE	\$12,610,067	7,693,503	5,413,591	not avail

**General Fund and Lottery Appropriations
for the State Undergraduate Scholarship/Grant Programs**

FYs 2003-04, 2004-05 and 2005-06

<i>portion from State General Funds</i>	<i>\$19,325,740</i>	<i>\$19,322,247</i>	<i>\$19,322,247</i>
<i>portion from Lottery Revenues</i>	<i>\$3,000,000</i>	<i>\$4,000,000</i>	<i>\$4,000,000</i>
TOTAL All Programs	\$204,392,207	\$237,245,147	\$257,553,582

NOTE: The appropriations above represent only initial program funds as provided per the Appropriations Act. State General Funds and Lottery Funds are included. In addition, Barnwell Revenues that are appropriated for the Education Endowment are included. The Education Endowment for higher education is funded at \$24,000,000 annually through a combination of Barnwell Nuclear Waste Facility revenues and State General Funds. The Education Endowment funds are split equally between the the Palmetto Fellows and Need-based Grant programs.

- (1) For the Palmetto Fellows and LIFE programs, additional amounts above the appropriations may be provided since these are "open-ended" programs and qualified students are provided the awards. Any funds appropriated above those in the Appropriations Act are not reflected here.
- (2) HOPE and Lottery Tuition Assistance for 2-Year Institutions have only been funded to date with lottery revenues.
- (3) Program managed by the South Carolina Tuititon Grants Commission. Includes state funds for need-based grants to qualified students a SC's Independent Colleges and Universities.

Source: Data pulled from appropriation acts for FY04, FY05, and FY06

FACILITIES OPERATION AND MAINTENANCE

Colleges and universities conduct a wide range of activities in pursuit of their missions as institutions of higher education. The physical facilities of an educational institution affect all segments of the institution and must effectively provide the level of service necessary to support the institution's objectives in fulfilling its mission.

The degree to which each institution's facilities fulfills any or all of the functions necessary to its mission depends in a large measure on the goals of the institution, its size, and the availability of resources. An institution's facilities must be adequate to serve the programmatic needs of the institution. However, many outside factors often conflict with this overriding requirement. These include changing enrollment patterns, which necessitate flexibility in functional use, proliferation of codes and standards, increasing costs for operation and maintenance, and austere funding.

The effective allocation and utilization of physical facilities is essential if an institution of higher education is to meet its objectives in the areas of instruction, research, and public service.

FACILITIES

Glossary

Academic Support - Funds to provide support services for an institution's primary missions – instruction, research, and public services.

Accessible Area - An indication that a room can be approached, entered, and used, without assistance, by a mobility-impaired person. The United States Department of Education Section 504 Subpart C regulation states “no qualified individual with a disability shall be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination under any program or activity because a recipient’s facilities are inaccessible to, or unusable by, persons with disabilities.”

Assignable Area - The sum of all areas on all floors of a building assigned to, or available for assignment to, an occupant or use, excluding spaces defined as building service, circulation, mechanical, and structural areas.

Auxiliary Enterprises - Activities that exist to furnish goods or services to students, faculty, or staff, and that charge a fee directly related to, although not necessarily equal to, the cost of the goods or services are included in auxiliary enterprises. These entities are classified as self-supporting.

Educational and General (E&G) - Space used for the educational and general operations of an institution, including instruction, research, public service, academic support, student services, institutional support, operation and maintenance of physical plant, etc.

Hospitals - Activities associated with the patient care operations of a hospital. This category does not include instructional activities which may take place in the hospital but which are more appropriately categorized in the instruction program.

Independent Operations - Institutional activities that are owned by or controlled by the institution but that are independent of, or unrelated to the institution's mission

Institutional Support - Activities carried out to provide for both the day-to-day functioning and the long-range viability of the institution as an operating organization. The ultimate goal of the institutional support program is to provide for the institution's organizational effectiveness and continuity

Instruction - Activities carried out for the express purpose of eliciting a measure of educational change in a learner or group of learners.

Physical Plant Operations - Activities related to maintaining existing facilities and grounds, providing utility services, and planning and designing future plant expansions and modifications.

FACILITIES

Glossary

Public Service - Activities established to make available to the public the various resources and capabilities of the institution for the specific purpose of responding to a community need or solving a community problem.

Research - Any activity intended to produce one or more research outcomes – including the creation of knowledge, the organization of knowledge, and the application of knowledge. A research activity may be conducted with institutional funds or under the terms of an agreement with an agency external to the institution.

Room Hours of Instruction - The number of hours each week that a classroom is used for regularly scheduled classes.

Space Factor Calculation - A very useful calculation for facilities planners, in that it combines into a single factor the concepts of weekly room hours, percent student station utilization, and assignable square feet per student station. The lower the space factor, the more effectively the space is being utilized for instructional purposes. The calculation is: the average student station size (SF per student station) divided by the average week room hours of instruction multiplied by the station utilization percentage.

Station Utilization Percentage - Indicates the average percentage of student stations that are occupied when classrooms or class laboratories are in use. It is calculated by dividing the student clock hours generated in classrooms (or class labs) by the potential student clock hours for classrooms (or class labs) and multiplying by 100 to convert to a percentage. Potential student clock hours is computed on a room-by-room basis by multiplying the number of student stations in each room by the room hours of instruction generated by the room. It indicates the number of student clock hours which would be generated if every room were filled to capacity (i.e., if the number of students equaled the number of stations) each time a course met in the room.

Student Services - Activities that contribute to the emotional and physical well-being of the students, as well as to their intellectual, cultural, and social development outside of the context of the institution's formal instruction program.

Student Station - A desk, table/chair, theatre seating, etc., used by the student in the classroom or class laboratory.

FACULTY IN HIGHER EDUCATION

Higher education institutions have changed dramatically in the past 20 to 30 years as a workplace. Essentially, an institution is a workplace of two cultures: faculty and administrators. In the past, the faculty has been the dominant group affecting the conditions of the workplace with administrators being subservient to the influence of the faculty. Today the role and importance of each group has changed considerably and each affects the other as the institution adjusts to a rapid environmental and social evolution.

Faculty are pivotal resources around which postsecondary education revolves. They determine curriculum content, student performance standards, and quality of students' preparation for careers. Faculty members perform research and development work which can advance this nation's technological and economic well-being. Through their public service activities, they also contribute to the public good.

Average Salaries Of Full-Time Teaching Faculty

2005-2006, Nine-Month Contract Basis *

Research Institutions	Professor	Associate Professor	Assistant Professor	Instructor	Average All

Faculty Salaries reported according to CUPA definitions

Ranked Faculty only (Excludes lecturers/other, and graduate teaching assistants).

Includes 11/12 month contracts converted to 9-month basis (.818 conversion factor)

Faculty includes those members of Instruction/Research Staff that are employed full-time and whose major regular assignment is instruction including those with released time for research.

* Salaries for Clinical & Basic Medicine 12-Month Contract basis.

** No data reported for this faculty level at this institution.

Appendix 1

Performance Funding In South Carolina A Brief History and Background

Act 359 of 1996 amended sections of the South Carolina State code relating to the Commission on Higher Education (in particular Section 59-103-5, *et seq.*) to dramatically change the mechanism for determining state funding of public higher education. The legislation mandated that the Commission, in consultation with institutions and other key stakeholders, develop and use a performance system for determining institutional funding. The law specified that the quality of higher education institutions could be measured by considering nine critical success factors with 37 indicators suggested to measure those nine areas, and provided a three-year phase-in period to develop a system that would base all funding of public higher education in South Carolina on performance.

To meet its mandate, the Commission on Higher Education (CHE) developed a two-part plan: 1) a determination of financial need for the institutions – resulting in the Mission Resource Requirement (MRR) to identify the total amount of money an institution should receive based on comparable costs for institutions of similar mission, size and complexity of programs and 2) an evaluation process whereby each institution's performance on identified measures is rated and funding is allocated contingent on the ratings. Developed in 1996-97 and substantially revised in 1999, the plan was phased in over time so that by the third year, as required, an assessment of performance on all indicators as listed in law (§59-103-30(B)) determined all general operating funding.

The Commission has continued to work with the 33 public institutions in South Carolina to refine and improve the system since its inception. Major changes to the system from that as initially adopted occurred in the first full year of implementation (FY99 measurement impacting FY00 allocations.) In that year, a change in scoring provided for ratings on each performance indicator to be on a 3-point scale rather than the 6-point scale. Additionally, a scale was applied to the resulting overall average performance score so that dollars were allocated on the basis of five performance categories rather than individual overall scores. Many of the indicator measurement definitions have changed since they were first defined in 1996 and 1997. Most such changes occurred in FY00, which impacted FY01 allocations, with changes to definitions occurring to a lesser degree the following years. In FY01, the method for identifying the standards used to determine performance changed from a system whereby each institution negotiated its own benchmarks to one where standards were determined for sectors of institutions based on available national, state and regional data and peer data. Additionally, during that same year, the Commission added a component to the three-point indicator scoring scale to provide recognition of individual institutional improvement over past years. The last significant revision occurred effective with FY02 and involved a reduction in the number of indicators used in determining overall institutional performance from 37 to 13 or 14 key indicators. The reduced set of indicators had been identified by the Commission working in consultation with institutions and other key stakeholders as those that had proven to be most informative and useful in assessing performance and were best reflective of sector and institutional missions.

The Commission publication “Performance Funding Workbook: A Guide to SC’s Performance Funding System for Public Higher Education” provides the latest details on SC’s performance funding system and measures used in determining performance. This publication and additional details are available on the Commission’s website www.che.sc.gov.

Types of Public Institutions in South Carolina by Mission

Changes to the SC State Code of Laws, 1976, as amended, arising from Act 359 of 1996, set forth missions of public higher education, as well as, for each type of public institution in the state. (Sections 59-103-15 (A) and 59-103-15(B)). These statements are excerpted and printed below. In performance funding, applicable measures are determined by sector.

Mission Identified for Higher Education in South Carolina:

The General Assembly has determined that the mission for higher education in South Carolina is to be a global leader in providing a coordinated, comprehensive system of excellence in education by providing instruction, research, and life-long learning opportunities which are focused on economic development and benefit the State of South Carolina.

Goals to be achieved through this mission are identified and include: high academic quality; affordable and accessible education; instructional excellence; coordination and cooperation with public education; cooperation among the General Assembly, Commission on Higher Education, Council of Presidents of State Institutions, institutions of higher learning, and the business community; economic growth; and clearly defined missions.

Mission Identified for Types of Sectors of SC Higher Education are:

Research institutions

- college-level baccalaureate education, master's, professional, and doctor of philosophy degrees which lead to continued education or employment;
- research through the use of government, corporate, nonprofit-organization grants, or state resources, or both;
- public service to the State and the local community.

Four-year colleges and universities

- college-level baccalaureate education and selected master's degrees which lead to employment or continued education, or both, except for doctoral degrees currently being offered;
- limited and specialized research;
- public service to the State and the local community.

Two-year institutions - branches of the University of South Carolina

- college-level pre-baccalaureate education necessary to confer associate's degrees which lead to continued education at a four-year or research institution;
- public service to the State and the local community.

State technical and comprehensive education system

- all post-secondary vocational, technical, and occupational diploma and associate degree programs leading directly to employment or maintenance of employment and associate degree programs which enable students to gain access to other post-secondary education;
- up-to-date and appropriate occupational and technical training for adults;
- special school programs that provide training for prospective employees for prospective and existing industry in order to enhance the economic development of South Carolina;
- public service to the State and the local community;
- continue to remain technical, vocational, or occupational colleges with a mission as stated in item (4) * and primarily focused on technical education and the economic development of the State.

* As stated in the legislation. "Item 4" refers to the stated mission as reflected here for the state technical and comprehensive education system.
